

ERGO TOP

- **Adjustable:** Tiltable from 0° to 60° and adjustable up to 25cm in height as needed. For those who have to work several hours a day with a laptop in the office, it reduces neck fatigue and relieves back pain in by improving the sitting posture. It reduce eye fatigue by adjusting the height of vision
- **Collaborative:** Allows you to comfortably turn the laptop horizontally and point it in the desired direction. If you are watching a presentation or communicating with colleagues, you can quickly rotate the screen without having to move your laptop frequently to facilitate collaborative work.
- **Robust:** Made of high-quality aluminum alloy, this aluminum alloy has excellent thermal conductivity which contributes to better heat dissipation. The 4 non-slip rubber pads on the tray keep the laptop stable and prevent it from slipping. The non-slip rubber pads under the base keep the stand stable.
- **User-friendly:** Lightweight and foldable, this product is easy to carry. It can fit all laptops and tablets from 10" to 17". The aluminum alloy material and surface oxidation treatment ensure that the product is durable and will not deform.

- Recommended by Occupational Medicine
- Tilt: 0° to 60°
- Height min: 5 cm / height max: 25 cm
- Dimensions folding: 26,5 cm x 21,5 cm x 4,5 cm
- Materials: aluminum/ non-slip rubber glides

4- The right posture

A good working posture saves both productivity for the company and comfort and safety for employees. It is for these reasons that UNILUX designs products with functional, ergonomic concepts and harmonious and bold design.

Some tips for diagnosis work posture:

- Using a footrest to raise the foot 15°.
- The angle of the elbow must be 90° or slightly obtuse.
- The forearms are close to the body and rest on the armrests.
- The hand should be in the extension of the forearm and supported by a wrist rest.
- The back is straight or slightly behind, and supported by the backrest.
- The head is straight or slightly bent forward.
- The top of the screen is at eye level.
- The work plan should preferably be matte.

5-UNILUX solutions to meet your needs

1-Relieve neck tension

Screen position too low

Solution:
Monitor arm support

2-Avoid wrist pressure

Carpal tunnel pressure

Solution:
Wrist-Rest

3-Improve blood circulation

Improper foot position

Solution:
Foot-Rests
